CAPE TO CAIRO RAILWAY.

A cable was received by the British South Africa Company last week stating that the railway reached Broken Hill on the 10th inst. This point is 374 miles from the Victoria Falls and 1,016 miles from Cape Town, and its completion constitutes a further step towards the full scheme of Mr. Rhodes's great scheme. The railway, which extends 99 miles north of the Falls, on May 29, 1905, since which date rapid progress has been made. On July 1, 1905, the further extension was commenced, and the 281 miles from Kalamo to Broken Hill were constructed in 346 days. On 29 days, however, no p.m. laying was done, so that the rails were actually laid at the rate of over a mile a day. On September 26 last five and three-quarter miles were put in between daylight and dark, constituting a record for rapid plate-laying in South Africa. The last 86 miles were laid in 72 days, and the last 60 in 42 days. There are even bridges of over 5 ft. span, and the Kafue River bridge is 12 ft. in length. It adds that 3,000 to 5,000 natives were constantly employed, and about 350 whites. The narrow gauge line to the Rhodesia Banket property has also been completed.

THE BATHING SEASON.

We have now reached the season when many of us who have the time and inclination for sea-bathing are thinking of enjoying a dip in the sea. Many who do not indulge in this health-giving practice would no doubt join the ranks of those who do, were they satisfied that they could do so without risk, and that they are justified in hesitating is amply proved by the sad list of bathing fatalities last year. What precautions the authorities have taken to prevent as far as possible a repetition of these unhappy occurrences during this summer we do not know, but we would urge that the mere provision of a few life-belts announced last year is far from being equal to the needs of the situation. Baths are an urgent necessity, and should be provided at certain selected spots along the Ramleh coast at fixed hours daily. The proprietors of all baths along the coast should also be compelled to have boats in attendance and such other measures be taken as will ensure as far as possible the safety of bathers willing to comply with the regulations laid down.

Now that the new sea wall is completed we hope it will not be long before the

LOCAL AND GENERAL.

Hashish Seizure.
The Suez Coast Guards recently confiscated 180 kilos of hashish packed in small bags.

A Foundling.
The dead body of an abandoned child was found at Karmous yesterday and removed to the Government Hospital.

Printers' Strike.
The compositors of "Le Phare de Port Said" have gone on strike owing apparently to a difference between them and the editor of the paper.

Elementary Examination.
The written examination of the elementary schools ended yesterday morning, and the oral examination closes to-day. The results will be published in a fortnight's time.

Nile Valley Co.
Application has been made to the London Stock Exchange Committee to appoint a special limited liability in Nile Valley (New) Company, Limited—216,765 shares of £1 each, 18s. paid (Nos. 1 to 216,765).

The Plague.
A fresh case of plague is reported to-day at Alexandria, the victim being a child of 8 years who was found dead in Mourad street, Labbané quarter. In consequence of this case the quarantine measures on the departure of vessels from Alexandria have been reinforced.

Egyptian Cotton.
At the Convention of the American Cotton Manufacturers' Association, held at Asheville, N.C., recently, one of the most interesting speeches of the session was that of Mr. S. H. Carver, of Alexandria, who addressed the convention on the "Cultivation of Cotton in Lower Egypt."

New Secondary Schools.
The building of the new secondary school at Ghish, which was begun last year, will be completed on the 1st October, 1907. The Ministry of Public Instruction is erecting another secondary school at Moharram Bay, Alexandria, and this will be inaugurated in October 1908. Another secondary school will be erected at Tantah or Assiout, by the Government.

Al Azhar.
The Chancellor of Al Azhar University has made several alterations in the constitution of the committee of examination at Al Azhar. Sheikh Mohamed Bekhit, Sheikh Ahmed Naser El-Adawi, and Sheikh Mohamed El-Wajidi, have been placed on the examining board instead of the Grand Mufti of Egypt, Sheikh Mohamed Tameini, and Sheikh Hassanin El-Boulaki, respectively.

Egyptian Eggs.
An American contemporary says: Among the "openings for British trade" mentioned by the British Vice-Consul at Alexandria in his report for the year 1905 we find the fact that "one cannot find an egg cup small enough for the Egyptian egg." The true remedy for that, surely, is to get Lord Cromer to turn his attention to Egyptian eggs, and do for them what he has done for Egypt's property and credit.

An Appeal.
We should like to call the attention of our readers to the case of two French ladies of Alexandria who, having suddenly lost their entire capital and being in delicate health, are entirely destitute and for the time being incapable of earning a livelihood. We have enquired into their case, and from the information we have received, notably from the head of the Convent des Enfants Trouvés, we can testify that they are eminently deserving of support. Any donations will be gratefully received and acknowledged by the Editor of the "Egyptian Gazette."

PERSONAL AND SOCIAL.

Rear-Admiral Henry L. F. Royle, who died at Plymouth last week at the age of fifty-seven, saw active service in Egypt in 1882, and on the West Coast of Africa in 1891-2, when he commanded a Naval brigade in punitive operations against marauding chiefs. For his services in West Africa he received the Distinguished Service Order.

Mr. Macbell, Adviser to the Ministry of the Interior, returned on Tuesday evening to Cairo from Chibin-el-Kom.

A marriage has been arranged between Mr. J. Hicks Paull and Doris, younger daughter of Mr. and Mrs. Ernest Collins, of The Gables, Hampstead.

Mr. Moir, formerly of the Khedivial Mail Line has been appointed a Moulzim Awa in the Alexandria City Police.

Among the latest arrivals at the Savoy Hotel, Port Said, we notice: Major Herbert, Mr. Hood, Mr. H. Bubb, Mr. L. S. Sora, Capt. Murray, Mrs. Craig, Capt. Varnshaw, Major H. D. Palmer, Lieut. Colonel and Mrs. Mathelet, Mr. Spencer, Mr. Spencer, Mr. Atkinson, Mr. H. C. Nichols, Mr. A. Pergason, Mr. H. W. Boys, Mrs. Boys, Mr. Peach, Mr. Vaughan Williams, Mr. T. G. TURKEY AND PERSIA.

RELATIONS ENDANGERED.

CONSTANTINOPLE, June 20.

The Persian Ambassador has complained to the Porte regarding the further despatch of troops and munitions to the frontier, endangering the relations existing between the two countries.

(Reuter)

From enquiries made by the London correspondent of the "Manchester Guardian" it was believed that the boundary dispute between Turkey and Persia was in a fair way to be settled quietly. The trouble really is that the boundary has never been defined. British surveyors about half a century ago mapped the "boundary zone" (and a huge affair the mapping was, running to a hundred or more sheets), but it is only a map of the territory through which the boundary is assumed to run, no line being demarcated. It is easy to see how there could be perpetual differences of opinion, the immediate cause now being the occupation by Turkey of Vaseva and some other villages which, in the opinion of the British Foreign Office, lie distinctly in the Persian part of the "boundary zone." The Persians, with a view to establishing a joint inquiry, organised a Frontier Commission, and pressed the Turkish Government on their side to do the same. This, however, the Porte refused to do. The Sultan also refused to recognise the arbitration of Great Britain, which Persia was quite ready to accept. It now appears, however, that the Sultan has reconsidered his position, and is willing for a Turkish Commission to join the Persian Commission already on the spot. If so, this may come to contain something more useful than a "zone."

THE SULTAN'S ORDER.

There is a sequel to the murder of Redvan Pacha which in any other country but Turkey would create a terrible sensation. Abdul Resak, ex-Chamberlain of the Sultan, and Ali Schamyl, ex-Governor of Soutari, stand condemned to death as instigators of the crime, and the Court of Cassation has confirmed the sentence. As the two condemned officers were not the actual murderers, but the procurers of the murder, there still remained strong hope of the Sultan's clemency, but Abdul Resak has, it is alleged, entirely closed that avenue of escape to himself and his accomplice by formally declaring that in getting Redvan put to death they acted on the command of the Sultan. He and his companion will pay for the assertion with their heads if that is any gauge of sincerity.

THE KHEDIVÉ.

H.H. the Khedive wired yesterday to the Regent announcing his departure from Constantinople for Vienna.

"AN EGYPTIAN CONSPIRACY."

The "Daily Express," under the startling headline, "An Egyptian Conspiracy," states that 75 native officers have been degraded by order of the Council of Ministers, and adds that the news bears out the rumour to the effect that certain native officers had arranged to join the Turks in the event of hostilities following the British Ultimatum to Turkey. This rumour appears to us to be hardly worth contradiction. The native officers of the Egyptian army are loyal to H.H. the Khedive, as are their men.

The story is of a piece with the story published by the Cairo correspondent of the "Pall Mall Gazette," who stated that at the most critical stage of the negotiations the Egyptian troops at Cairo were deprived of their arms. Unfortunately for this sensational story the truth is that one of the three battalions in Cairo sent its rifles in to have the barrels browned for the summer. This procedure is followed early in May every year and the usual routine was followed in 1906.

BRINDISI MAIL'S ESCAPE.

SAVED BY A TUNNEL MAN.

The "Daily Mail" states that on Tuesday week the express train from Calais to Brindisi, carrying the Indian mail, and having on board a number of English passengers, narrowly escaped destruction. It appears that in consequence of the displacement of the bed of the river Arno it had been found necessary to place a temporary point near the Saint Antoine torrent. Owing, it is supposed, to some accident, the point was wrongly set, and the Brindisi express ran off the down line on to the up line, and continued running at a speed of sixty miles an hour on the wrong set of rails for several miles without the driver perceiving what had happened, it being pitch dark at the time. The keeper of the French end of the tunnel leading into Italy, however, saw what had happened, and set all his signals against the express, with the result that the train was brought up a few hundred yards further on in the tunnel. A mile away, approaching the express on the same line of rails, was passenger train No. 1,008, and but for the presence of mind of the tunnel signal-keeper, a collision was inevitable.

THE DENISHWAI AFFAIR.

PRELIMINARY EXAMINATION CONCLUDED.

TRIAL TO OPEN ON SUNDAY.

The Ministry of Justice has issued orders to the members of the special Court to proceed to Shihin El-Kom Markaz to open the trial of the natives implicated in the Denishwai outrage, on Sunday morning. The special Court will be composed of Bostros Pacha Ghali (president) and Mr. Hayter, representing the Judicial Adviser; Judge Bond, vice-president of the Native Court of Appeal, Cairo; Lieut. Colonel Ludlow, D.A.A.G. to the Army of Occupation, and Ahmed Fethi Bey Zaghoul, judge of the Native Court of First Instance (members), and Osman Bey Mortada, secretary. Ibrahim Bey Hilbawi will represent the Parquet, and Ahmed Bey Lotfi, Ismail Bey Assem and others will act as counsel for the defendants.

Major Pine-Coffin arrived at Alexandria yesterday and will return to Chibin for the trial on Saturday. We are glad to say that the distinguished officer is making a good recovery from his injuries.

(FROM OUR SPECIAL CORRESPONDENT.)

Kamshab, June 19.

Major Pine-Coffin, who has during the last few days been in Tantah Hospital, arrived to-day at Shihin El-Kom. On being confronted with a number of the accused he identified ten of them. To see whether the Major's identification was correct or not, one of the ten identified by him was again ranged among another group of the accused who were brought before the officer for identification. Major Pine-Coffin, seeing the man he had recognised before, remarked that he had identified him already.

The preliminary examination is over, and the official papers were sent to-day to Cairo, where they will be printed and distributed among the members of the special Court. The trial will commence at 10 a.m. on Sunday, at the Shihin El-Kom Moudiriah, where permits of admittance will, it is said, be issued to the public.

Capt. Bostock, R.A.M.C., who recently came back from Cairo, entered Shihin El-Kom Hospital to-day owing to an attack of fever.

Our Cairo morning contemporary, to use its classical expression, "has a poke" at our Special Correspondent at Denishwai mainly on account of his statement that the villagers eat rats and mice. The writer of the article we refer to has evidently spent very little time outside Cairo during his residence in Egypt. Otherwise he would be aware that the fellahs of the rougher and poorer districts will eat worse things than rats and mice, which are in the villages, at least, clean-fleshed animals. An acquaintance of the writer's on one occasion came across two Sharik fellahs eating the raw entrails of a fox, and there is no doubt that in many places both in Syria and Egypt the fellahs, when hungry or craving a meat diet, will eat animals that are usually considered unclean. The writer was informed at Deraa that the trans-Jordan Arabs will eat hyena at times, and the habit of earth eating is very common among Egyptian fellahs.

EGYPTIAN ENTERPRISE.

The keen interest H.H. the Khedive takes in everything touching upon the welfare of the country, and more particularly upon its commercial development, is well known, as is the fact that he is a believer in the ability of the Oriental to take a high place in the promotion of that development. It is not surprising therefore that his Highness has shown his appreciation of the work lately done by the chairman and managing director of the Gharbich Land Co., who is, as our readers are aware, also the managing director of the Egyptian Enterprise and Development Co. This is a gentleman who is at the head of enterprises that have brought about one million pounds of European capital into Egypt, enterprises which though still young are among the most promising of those that have been started of late years, and are of a character that has induced a number of Englishmen of high repute to associate themselves with their control. It is perhaps needless for us to say that we are speaking of Mansour Noghbi Pacha Shakerou, on whom his Highness conferred the grade of Miran on the day before his departure for Constantinople.

The new Pacha is a member of a family well-known in Egypt and Syria, and having been educated in England and Switzerland, qualified as an engineer in the latter country. Having spent eighteen years in the service of the Egyptian Government, chiefly in the Railway Department, in which he rose to the rank of chief of the Electrical and Signalling Department of that service, he some time ago retired with the object of devoting himself to the promotion and development of schemes for the welfare of the country such as those embodied in the working of the two companies we have mentioned above, which he is now carrying out with the aid of a most competent staff, including several Englishmen whose esteem for their chief is founded upon their recognition of his great ability and high personal qualities.

GRECO-EGYPTIAN TREATY.

THE HASHISH TRAFFIC.

Our contemporary "Le Journal du Caire" gives the full French text of the new commercial treaty concluded between Egypt and Greece. We give certain articles which deal with the hashish traffic.

PROCES VERNAL A.

An moment de procéder à la signature de la Convention conclue en date de ce jour entre le Royaume de Grèce et l'Égypte, les Soussignés, dûment autorisés par leurs Gouvernements respectifs, sont convenus de ce qui suit:

Le Gouvernement Hellenique interdira l'exportation du hashich de la Grèce pour l'Égypte. De son côté le Gouvernement Égyptien interdira l'embarquement dans ses ports pour la Grèce de tous articles constituant un monopole de Gouvernement Hellenique.

A partir de la mise en vigueur de la Convention et pendant toute sa durée, le hashich, qui sera exporté de Grèce à destination de tous ports étrangers autres que les ports Égyptiens, sera soumis à un cautionnement de dix drachmes par ceque, qui ne sera restitué qu'après la production d'un certificat du Consul de Grèce du port de destination. Ce certificat ne sera délivré que lorsque le Consul aura acquis la preuve notament par le paiement des droits de douane, de l'arrivée du hashich et de sa vente dans le pays auquel il est destiné.

III
Les personnes qui importeraient ou introduiraient du hashich en Égypte, malgré la prohibition stipulée dans le présent protocole verbal, seront jugées par le tribunal consulaire hellenique d'Alexandrie, comme auteurs ou complices d'un délit de contrebande conformément à la loi hellénique du 19 février 1892 modifiée par la loi, BYIZ du 9 avril 1896 et aux dispositions y relatives du Code Pénal Hellenique, sans préjudice des confiscations et condamnations pécuniaires qui pourraient être prononcées contre elles par la Commission Douanière en vertu de l'article 18 de la Convention.

The treaty contains 24 articles and is signed by M. A. Skouzes and Aziz Pacha Izzet on behalf of their respective Governments. After being approved by the Greek Chamber the treaty will enter into vigor on the 15-28 June, 1906, and will remain in force for a period of 15 years from that date. If neither of the contracting parties gives notice twelve months before the expiry of the period of 8 years, of its intention of putting an end to the present convention, the convention shall remain in force till twelve months from the date of its denunciation by one or other of the contracting parties.

EGYPT 100 YEARS AGO.

(FROM THE "TIMES" OF 1806.)

THURSDAY, JUNE 12.

Constantinople, April 25.

The Beys in Egypt have at length made themselves masters of Cairo, in the stead of which they shut up Mohamed Seid Ali, the former Chief of the Arnauts, and who had made himself Governor of Egypt. The Beys, however, have dismissed him from that post by Proclamation, and dispatched a Courier hither, to communicate this event to the Grand Seigneur, at the same time justifying their conduct and adding a declaration, that if the Porte would confirm the ancient privileges of the Beys, they were perfectly disposed to admit full Sovereignty, and to pay the ancient tributes. They also proposed, that the Porte should appoint a new Governor of Egypt, in the person of Houroub Pacha, or Hamed Pacha, both of whom had already filled that office; they, the Beys, being all willing, under these limitations, to resign the Government of Cairo to such Governor.

QUESTION IN PARLIAMENT.

In the House of Commons last week, Dr. Rutherford (L. Brentford) asked the Foreign Secretary what action had been taken under the article of the Anglo-Egyptian agreement of 1899 relating to the prohibition of the importation or manufacture of spirituous liquors in regions in the zone where for religious or other motives they were not then used.

Sir R. Grey said the Government of the Sudan had drawn up various regulations for controlling and licensing the import and sale of alcoholic liquors in their territory. The matter was one engaging the constant attention of the Sudanese Government.

PROPOSED COTTON EXHIBITION.

A proposal is made in this month's issue of "Egyptian Cotton" for holding a cotton show at Alexandria. It is suggested that the show might be under the auspices of the Alexandria General Produce Association, and October and November are regarded as suitable months for the purpose. The principal object would be to exhibit to Egyptian cotton-growers what is being done in other parts of the world in cotton cultivation. Merchants in Alexandria could of course easily obtain representative samples from the United States, India, the Sudan, and so on to form an interesting and instructive exhibition. The British Cotton-growing Association would perhaps participate by providing exhibits from Nigeria, Lagos, and elsewhere. Ginning, spinning, weaving, and agricultural machinery could and indeed ought to be also on exhibit, and manufacturers would doubtless gladly embrace the opportunity of showing their productions. Opinions are being canvassed on the suggestion. One that naturally suggests itself is that as October and November are tourist months there should be a section of Egyptian exhibits, and one as extensive as any.

MESSRS. SHRAGER'S BANKRUPTCY.

At the London Bankruptcy Court yesterday week Registrar Licklater had before him the public examination of Cecil Shrager, the London partner of the firm of Shrager Brothers, of Lloyd Avenue, and of Calcutta and Alexandria. The accounts of the London firm which had been filed disclose liabilities amounting to £78,893 (£81,518 being unsecured) and assets £4,089. The accounts of the Indian branches had not yet been filed. The debtor stated in examination that the turnover of the firm had not been less than £4,000,000 a year, and what brought them down was a loss of some £50,000 or £60,000 on certain jute contracts which they had been unable to execute through the cornering of the market and through disastrous floods which had disorganised the railway traffic. Mr. Rother, for the trustee, asked that the public examination of the debtor might be adjourned on the ground that, owing to the accounts from the Indian branches not having been received, he had not been able to investigate them. The Registrar refused to accede to the request, saying that he could always call upon the debtor to assist him in the administration of the estate. He would help the trustee by calling in the aid of the Calcutta Court to examine the partner there. He accordingly concluded the examination of Cecil Shrager and adjourned generally the examinations of Isaac and Adolph Shrager, while as regarded John Shrager, another partner who had sent in no accounts, his examination was adjourned sine die.

DELEGATION MUNICIPALE.

La Commission Municipale s'est réunie le 20 juin 1906 sous la présidence de Mr. le Dr. Schiass Pacha.

Mention est faite de l'envoi aux membres des procès verbaux de la Délégation des 15, 16, 22 et 29 Mai 1906.

M. Ecohier demande si dans le décret de 17,000 L.E. voté pour la construction de la corniche, les dépenses nécessaires pour l'expropriation des terrains, non cédés par leur propriétaire, sont comprises, car il croit se rappeler qu'il avait été entendu que la confection de la route devait être subordonnée à la cession intégrale et gratuite des terrains qu'elle doit englober.

L'Administration répond qu'un très-petit nombre de propriétaires n'ont pas cédé les parcelles nécessaires au passage de la corniche mais qu'il est à espérer qu'un retour des avantages que leur procurera cette route, ils imiteront l'exemple des autres propriétaires. Comme cependant la Commission a émis dans sa dernière séance le désir de porter à 25 mètres la largeur de la corniche, de nouvelles démarches doivent être entreprises auprès des propriétaires pour leur céder les parcelles.

Il est donné à ce sujet lecture du procès verbal du Comité des travaux publics concluant à l'occasion de l'étude à entreprendre au sujet des moyens d'exécution de la corniche que au cas où des obstacles proviennent soit du refus des propriétaires soit de la consignation du rivage, survenant, la largeur de la corniche pourrait être diminuée là où ces obstacles surgissent, une largeur uniforme de toute la route n'étant pas indispensable.

Communication est donnée de lettres arrivées de L.E. le Ministre de l'Intérieur: La première date du 6 juin 1906 informant que le Ministre des Finances adhère à la proposition de la Municipalité tendant à ce que les chefs des services des recettes et du tamzin soient désignés à titre de représentants de la Municipalité à la Con. chargés de l'exécution et du recensement des immeubles libres loués.

La deuxième, datée du 6 juin 1906, approuvant les comptes de la Municipalité pour l'exercice 1905 et transmettant certaines observations de détail, au sujet desquelles l'Administration donne les explications suivantes: La troisième du 14 juin 1906 approuvant les crédits votés par la Commission dans sa séance du 6 juin;

La quatrième du 16 juin 1906 relative aux terrains demandés pour la construction des maisons ouvrières;

La cinquième du 17 juin 1906 faisant part d'une décision du Conseil des Ministres relativement à la situation au point de vue de la retraite des employés transférés du Gouvernement à la Municipalité;

La sixième du 17 juin 1906 informant que le Ministre des Finances maintient sa manière de voir tendant à tenir en suspens la vente du lot 27 des terrains des quais.

Sur la proposition de la Délégation et de l'avis conforme des Comités des Finances et des Travaux Publics, la Commission autorise l'ouverture des crédits suivants sur le budget extraordinaire:

1° L.E. 2160 pour l'agrandissement du palais municipal.

2° L.E. 1500 pour la construction d'une nouvelle salle d'abattoir et d'une toiture à l'Abattoir.

3° L.E. 2540, dont L.E. 1238 déjà votés pour les travaux de terrassement de la route de 30 mètres sur toute sa largeur jusqu'à la tranchée de l'Ibrahimieh.

De l'avis du Comité des Finances, elle décide l'ouverture des crédits supplémentaires suivants sur la réserve du budget ordinaire. L.E. 418 pour imprimés et fournitures de bureau.

L.E. 300 pour secours aux familles des employés décédés ou licenciés pour causes d'infirmité.

Sur la demande du Comité des Musées, la Commission décide d'ouvrir un crédit de L.E. 200 pour les travaux de débâclement des sous-solaires que l'Administration des Portes doit détruire au Mex pour ses travaux d'exploitation de la nécropole de Chabty et de restauration de la nécropole d'Anfouchy.

La Commission approuve la proposition des Comités des Finances et des travaux publics tendant à réserver à la Municipalité le droit de racheter la jetée concédée à M. Joseph après l'expiration d'un délai de 25 ans et à certaines conditions déterminées.

Elle désigne pour faire partie du nouveau Comité des Gendarmes musulmans: M.M. Ahmed Bey Eynob, Ahmed Pacha Yehia, Abdel Kader Bey Ghériani, Mansour Bey Youssef, Soliman Bey Abadi, membres de la Commission Municipale; M.M. Choubachi Bey, Mohamed Bey Said et Said Bey Ghériani, notables; M.M. Ismail Bey Sidky et Mohamed Bey, fonctionnaires; L'Ingénieur en Chef et l'Inspecteur Sanitaire, feront partie de droit de ce Comité.

La Commission approuve la proposition de la Délégation tendant à la cession à bail, pour une durée de 25 ans et au loyer de L.E. 40 par an, à l'Université d'un terrain situé rue de la gare de Cairo et Nabl Daniel, à l'effet d'y édifier un immeuble exclusivement destiné aux cours et conférences, à une salle de lecture et à une bibliothèque, avec, au rez-de-chaussée, une grande salle destinée à des fêtes artistiques, littéraires et des conférences.

La séance est levée à 8 h. 1/2 p.m.

NOTES ET CRITIQUES

Le Caire, Mercredi 20 Juin 1906.
Le taux de l'escompte libre à Londres s'est d'ailleurs réduit de 1/8 à 3 1/4 pour cent.
Au Stock Exchange, le Consolidé anglais est resté hier invarié à 88 5/8. L'Unité a haussé de 1/4 de livre à 104 3/4 et la National Bank de 1/8 à 95 5/8. L'Agricole est demeuré inchangé à 95 5/8, de même que la Delta à 17 1/8 et la Delta Light à 11 3/4.
A Paris, l'action Crédit Foncier Egyptien a clôturé en baisse de 3 francs à 769. La Banque d'Attènes s'est maintenue à 154.

Bien qu'assez animé, notre marché des valeurs a été aujourd'hui quelque peu moins ferme qu'hier.

Le National Bank, toujours délaissé, a clôturé à son prix précédent, soit 25 9/16. L'Agricole, soutenu, a progressé à 9 11/16 3/4. La Banque d'Orient a avancé à 135. Le Comptoir Financier a faibli à 6 1/3-1/4 l'action ancienne et 6 1/2 la nouvelle.

Le Crédit Foncier a rétrogradé à 769-770. La Delta s'est affermie à 17 1/16-1/8. L'action Immobilière s'est inscrite à 369 et la part de fondateur à 570. L'Improvements Corporation a été ramenée à 4 9/16 5/8. L'action Clientèle a rétrogradé à 68; la part de dividende a gagné 3 francs à 18.

L'action Allotment s'est maintenue à 3 1/4 la part de fondateur a baissé à 123-124.

Les privilèges Tramways d'Alexandrie ont progressé à 194 et les dividendes ont passé de 845 à 854.

Dans le groupe des Hôtels, les Nungovich ont été négligés à 15 5/8-11/16 l'action ancienne et 15 9/16 5/8 la nouvelle. Les Babler ont débuté à 5 5/8 pour clôturer à 5 1/2-9/16. Les Upper Egypt ont été ramenés à 4 8/8 et l'Anglo-American Nile à 5 1/8-3/16.

Parmi les petites valeurs, les Estates ont été traitées à 1 23/32; la part de fondateur a avancé à 10 3/8-7/16. Les Egyptiana Constructions ont été ramenées à 1 7/16, les Abdy à 1 9/32. Les Glymespongo se sont consolidés à 19 1/8-5/8; les New Egyptian ont gagné 2 sh. 8 à 30 et les Sucreries 4 francs à 36-37.

Nous extrayons d'une de nos lettres d'Alexandrie, en date d'hier soir, les lignes suivantes :
"La séance de la Bourse d'aujourd'hui a été encore plus animée que celle d'hier lundi. Quelques valeurs ont acquis une place notable, mais il semble douteux que cette reprise soit stable, étant donnée la morte saison et la position de la place. Toujours est-il que le mouvement sur le Comptoir Financier a été déterminé par la rumeur qu'un dividende provisoire de P.E. 30 serait distribué fin Juin. Les actions privilégiées Tramways d'Alexandrie ont aussi avancé à 194 1/2 et les dividendes à 848, toujours par suite de la publication officielle du projet d'augmentation des deux titres. Enfin, pour expliquer la hausse, nous ne pouvons qu'attribuer à la hausse, tout au moins extraordinaire, d'un 1/8 sur la Delta Land, on a fait courir le bruit que cette Société avait acheté les terrains du quartier de Gai-noush pour y élever des maisons de rapport."

L'Assemblée générale extraordinaire de l'Agricole Bank of Egypt, qui s'est tenue hier, à 4 h. p.m., au siège social au Caire, a confirmé la résolution prise le 1er Juin tendant à remplacer le dernier alinéa de l'article 41 des Statuts par le texte suivant :

"Dans le cas où il serait pourvu uniquement par un prélèvement sur le fonds de réserve, les prêts ou termes d'obus et non recouvrés dans l'exercice qui viendraient à être encaissés dans les exercices suivants seraient versés au fonds de réserve jusqu'à concurrence du prélèvement opéré sur ce fonds."

"Si, indépendamment de ce prélèvement, une subvention a été payée par le gouvernement pour parfaire la somme complémentaire dont il a été parlé ci-dessus, les prêts ou termes d'obus et non recouvrés dans l'exercice qui viendraient à être encaissés dans les exercices suivants seraient versés en premier lieu au gouvernement jusqu'à concurrence de la somme par lui payée, et pour le surplus au fonds de réserve, toujours jusqu'à concurrence du prélèvement opéré sur ce fonds."

Parmi les assemblées générales d'actionnaires convoquées pour ces jours-ci, citons l'ordinaire de la Splendid Hotels of Egypt Co., fixée à après demain à Alexandrie, ainsi que les extraordinaires de la Building Lands Co. of Egypt et de l'Egyptian Trust and Investment Ltd. (Glymespongo) qui auront lieu le mardi 26 Juin, la première à Alexandrie, la seconde à Londres, en vue d'approuver la fusion des deux Sociétés.

L'Assemblée générale ordinaire de l'Egyptian Hotels Co. sera également tenue mardi prochain à Londres.

Carnet de l'actionnaire.
Les actionnaires de la Ghazibeh Land Co. sont informés que le deuxième versement de L.E. 1 par action doit être effectué au plus tard le 30 Juin courant, au siège social, rue Kantaret-el-Dikah, où l'Anglo-Egyptian Bank au Caire.

FAMILLE E. LAURENS
Madame Veuve E. Laurens et M. J. H. Laurens, profondément émus de la sympathie unanime qui leur a été témoignée, à l'occasion de la perte cruelle de leur époux et père M. E. Laurens, ont l'honneur d'exprimer leur plus sincère reconnaissance à toutes les personnes qui ont bien voulu prendre part à leur immense douleur.

BULLETIN DE LA BOURSE

(Aujourd'hui à midi et demie)

Le marché après avoir ouvert assez ferme clôture faible.

L'Agricole se maintient à 9 11/16, la National Bank à 95 9/16.

Les Tramways d'Alexandrie fléchissent de 1/2 à 193 par contre, les dividendes haussent de 3 francs à 358.

La Salt and Soda continue toujours à baisser, elle clôture aujourd'hui à 20-3.

Les Obligations Crédit Foncier anciennes avancent de 1 franc 50 à 326 1/2, les nouvelles fléchissent de 0 fr. 50 à 270 1/2.

La Banque d'Attènes reste à 155 1/4. La Delta Land réactionne de 3/32 à 327/32. L'Investment s'inscrit à 1 5/16.

Les Trust sont demandés à 1 19/32. Les Estates sont stationnaires à 1 1/4.

Le Comptoir financier baisse encore de 3/32 à 6 1/8.

La Banque d'Orient clôture à 132 3/4 en baisse de 0 fr. 75 sur hier.

THE COTTON MARKET

American Futures.—The market during the last two weeks has been interrupted by the White-tide holiday. Business has been extremely limited, and the only new feature has been the Bureau report. The acreage is given as 6% more than last season which is in accordance with the general expectation but the condition of 81.6 against 77.9 last year, was more favourable than was anticipated and caused a decline of 6 points. Subsequently owing to reports of drought, and Bears covering, prices advanced sharply about 15 points, but the improvement has only been partially maintained, more favourable crop news, and renewed Bear selling causing a sharp reaction. Today's closing values are 1 @ 2 points higher for the Old, and 2 @ 3 points lower for the New Crop from those of the 31st ultimo.

TO-DAY'S TELEGRAMS.

STATE OF RUSSIA.

GRUESOME DETAILS OF MUTILATION.

SITUATION BECOMING WORSE.

LONDON, June 20.
Jewish accounts of the Bielostok massacre contain gruesome details of mutilation; only the arrival of the Duma deputations caused a cessation.

The "Standard" understands that Sir R. Grey has telegraphed to Sir Arthur Nicholson asking for full information.

St. Petersburg, June 20.

The situation is becoming worse. Strikes and serious disorders are breaking out in all parts of the Empire. A general strike is threatened. At Riazan the men of a regiment mutinied and killed several of their officers. (Reuter)

MUTINY IN THE YEMEN.

A SANGUINARY CONFLICT.

HODEIDA, June 20.

Several companies of Turkish troops in the Yemen, having resolved to return to their homes, attempted to proceed to the coast. A sanguinary conflict took place. Ahmed Pasha, using artillery to reduce the mutineers, of whom a few only escaped. (Reuter)

NATAL REBELLION.

CONVOY RECAPTURED.

The Natalians have recaptured the convoy. (Reuter)

KAISER AND PEACE.

SPEECH AT OUXHAVEN.

BERLIN, June 20.

The Emperor William has arrived at Ouxhaven on his yachting tour. At a banquet at which he was entertained he expressed himself pleased with the gigantic development of the German merchant fleet. He said the first consideration was peace, which he prayed that God would continue to grant Germany. Prince von Bulow had done more than any other, in the interests of peace, and he was glad that he was restored to health and able to resume his duties as the Emperor's chief adviser. (Reuter)

PITH OF THE PRESS.

EXTRACTS FROM THE HOME PRESS.

The Education Bill.

One wonders whether the poor Liberals are to have a real holiday at all, or whether they are expected to work the party grapple up and down the country during the recess. Or is the Government as uncertain as the Duke of Devonshire about the real popularity or unpopularity of its measure; and is it hoping, by postponement of discussion upon its completed Bill, to find out how far it is safe to go in resisting the amendments which the House of Lords may make? The general impression made by its policy as at present disclosed is that of violence without strength, and a show of confidence covering some trepidation. (Times.)

The Pleasures of Berlin

The municipal authorities in Berlin have conceived the idea that its amusements are too cheap, and decided to slap a tax upon them. Henceforth every ticket for a theatre or concert, for a ball, a race meeting, and even a bazaar, will pay toll to the township. We are not surprised to learn that this latest development of civic wisdom is "extremely unpopular," although the extra charge is trifling in itself. In England we know that people who do not grudge half a guinea for a stall grumble woefully about paying sixpence for a programme, though they would cheerfully bestow it as a gift on the obliging young lady who conducts them to their seats. What they resent is being forced to pay for something which they think should be given them for nothing. (Standard.)

America's Millionaire Show.

We are to understand that the Rockefeller and others come here with the express purpose of dazzling us, much as the fortunate possessors of a false eye might betake himself to Central Africa in order to astonish the unsophisticated savages with his one possible stroke of magic. From the magician to the clown is after all but a short step, and already the American who comes here to astonish Europe is as often ridiculed as merely amazed. (Daily News.)

Mr. Seddon's Record Shout.

Among Mr. Seddon's other records is the loudest shout heard in the streets of London in our time. It was during the Coronation festivities, when the Colonial military contingents were marching along the Mall. A stand had been erected for the distinguished representatives of Greater Britain. Sir Wilfrid Laurier, the Prime Minister of Canada, was astonished at the asphyxiation of the crowd, and said:—"These people want waking up. I say, Seddon, you have a good voice. Raise a cheer." The New Zealand Premier took off his hat, waved it on high, and emitted a yell that echoed from Buckingham Palace to St. Paul's. And the Londoners woke up. (Daily Chronicle.)

Softening the Rain-God.

The guardian Joss of Canton, having hardened his heart to all prayers for a cessation of the heavy rainfalls, it has been decided to remove the roof of his temple, so that he shall have his share of the downpour. It is expected that this will melt him. (Tribune.)

Our Ellen Terry.

They say—or they used to say—that we English have no real love or appreciation of art in any of its forms—the dramatic among them. After yesterday's proceedings at Drury Lane our critics must at least admit that, so far as our players are concerned, we manage to conceal our indifference rather effectually. The truth, surely, is that in no country more than in England, and in no capital more than in London, are the public loyal to their old favourites. Not even Paris itself could have improved upon the warmth of the demonstration of popular affection to which Ellen Terry was treated yesterday, though Paris sent some of its most brilliant representatives of the actor's art to testify their admiration for the heroine of the day. It was a great occasion—the greatest, in its way, that the present generation of playgoers has seen—and, take it for all in all, we shall not look upon its like again. (Pall Mall Gazette.)

Nothing Wasted in Chicago.

Lord Dedbrooke: "There is one great trouble in your country, in my opinion. Blood don't count, you know." Chicago Heir: "Now, don't you make any mistake. Why, we just use that and horse, hoofs, bristles, and—well, you can bet nothing's wasted in poppa's business!" (Punch.)

MONEY AND SHARE MARKET

(FROM OUR FINANCIAL CORRESPONDENT.)

London, June 15.

The Money Market.

There is very little change to report in monetary conditions since last week. The market has been standing on the verge of ease, and hesitates before adopting any definite view. Credit dealers had to bear in mind that a goodly number of bills discounted with the Bank of England are just now maturing, and they are likewise awaiting a better showing in the returns of that institution. In this the market was somewhat disappointed yesterday, for although the reserve had been augmented by about a million and a half, the market's balances had decreased by nearly two millions. The India Council, too, has been calling in its loans during the past few days, so that with the approach of the end of the half-year also, it is not to be wondered at that the expected ease should be slightly delayed. That this is only a halt in the downward trend seems probable, for the factors which mainly dominate the position need cause no uneasiness. The French cheque, it is true, has weakened a little, but not enough to call for any alarm, whilst the American exchange has shown a very steady tendency and the other exchanges remain favourable.

The Stock Exchange obtained their loans over the account at 4½% a drop of ½% since the last settlement. Call money to-day is about 2½% to 2¾% with plenty of lenders. The discount houses have been working throughout the week at about 3½% per cent, and to-day call maturities are being taken at 3½% per cent, but the Joint Stock banks have generally been willing takers of bills at 3½% for some days past, which imparts a healthy tone to the outlook.

The Stock Markets.

The account just completed has been remarkable only for the extreme paucity of the business transacted, dulness having been predominant throughout all sections. Hence the work connected with the carry-over was of the lightest, and was speedily completed. Now that it is out of the way, members of the Stock Exchange are looking forward to a period of more activity. The conditions certainly warrant this expectation. Our relations with the other Powers are satisfactory, and even in regard to those countries which in the past we have regarded with suspicion and some omity feeling is being more and more influenced by the spirit of "Reteate Cordiale." As for the trade of the country, the prosperity continues and the railways are reporting increased traffic weekly. Nothing is now wanting but the interest of the investing public. Their attitude for a long time past has been characterised by indifference, but it is to be remembered that they have been influenced by a series of political disturbances at home and abroad. It is hoped that with the great improvement in the outlook they will exhibit renewed confidence.

The only point of interest this week has been the placing of the long-expected new Irish Land issue. In some quarters fault has been found with the Government for announcing this at the present juncture, but this dissatisfaction has been shared by the bulk of investors, the issue having been very cordially received. In fact, the list was only open from Tuesday until Thursday noon, although the advertised time-limit does not expire until next Monday. The details have not yet come to hand of the extent of the applications, and there is a diversity of opinion on the point, estimates as to the number of times the issue has been over-subscribed varying between three and ten. The amount of the issue is £7,000,000. Guaranteed Two-and-Three Quarters per Cent., the price being fixed at 89. The first dividend is payable on January 1st next. The stock is redeemable on November 1st, 1933.

Consols.

These first-class securities have been in a state of depression owing to the heavy selling by holders who desired to release money for the new Irish Loan. The price dropped suddenly to 83½, but the success of the new issue had a somewhat beneficial effect. The quotation for cash to-night is 88½.

Foreign Bonds.

Paris has developed increased nervousness respecting Russian affairs, and Russian bonds have been largely offered on the Bourse. This feeling of weakness has been reflected here, the Stock Exchange being by no means assured that a conflict between the Government and the Duma will be averted. The Pons have dropped to 79 and the new Loan to 1½ discount. Japanese have been irregular. The Sixes are ½ down at 101½, but the other series shows no change on the week.

Home Rails.

The tone of the home railway market is one of idleness, dealings being very insignificant. Several declines have been marked, though most of the heavies remain steady.

A comparison of the traffic for the fortnight including the Whitsun holidays with those for the same period last year shows some astonishing results. The London and North Western, which had a gain of £7,000 in 1905, has an additional increase of £21,000. The South Eastern and Chatham and the Lancashire and Yorkshire are, respectively, £14,600 and £12,500 to the good, and the Brighton £10,900; while there are several gains of from £4,000 to £4,000. In three cases only are there decreases.

Americans.

The stocks of American railways have been depressed, and the decline in prices on last

week's levels range from ½ in Southern Pacific to 3 points in Readings and Illinois Central. Unions, Chicago-Milwaukee, Louisville and Erie are all over two points down. Baltimore and Ohio, on the other hand, have received substantial support, and leave off 4 higher.

Egyptians.

The Egyptian market is still gloomy, and the trend of prices down, business being practically at a standstill, owing, it is said, to the summer season being upon us, and leaving-taking in full swing. National Bank of Egypt close 25½, and Agricultural Bank at 9½. Daira Saieh shares have changed hands as low as 16½, but close round about 17. The Deferred are a dull market with several sellers about at anything over a hundred. Delta Preference Bearer are quoted 11½, and the new issue, which have just had a settlement, are in request at about 11, although they are worth considerably more than this. Daira Sugar have been a wonderfully good market, closing at 4½ ex dividend. Union Fonciere have fallen to 6½, and Abyssinian Banks are ½ discount. Land Bank of Egypt are better at 8½. Delta Land and Investment at 8½ and Land and General at ½ premium are unchanged. Egyptian Estates remain steady at 1½. Salt and Soda are quite unmentioned at 1½, also Egyptian Markets at 1½.

Egyptian Trust and Investment have been favoured on the strength of the excellent results of the past year's working, and probably to an extent on the proposed amalgamation with the Building Lands of Egypt. Several thousands have been dealt in at ½ premium. Khedivial Mail Ordinary are supposed to be 1½.

Mining.

Early in the week Paris bought Kafir on the satisfactory report of the gold output for the Rand, and as a consequence there was some revival of activity here. This improvement was subsequently lost, however, and the market is again weak. Although the Government have climbed down on the Chinese labour question, there are fears that they may be influenced to further interference by the extreme section of their party, who are endeavouring to force matters.

The Egyptian section also is flat. The reconstruction of the Um Rus Company, to which we referred last week, has now become an accomplished fact, and the outlook for the concern is certainly more promising, although the market has not yet had time to fully assimilate the details of the scheme. The shares fell to 1s. after the company's meeting on Tuesday, and remained at this figure until to-day, when they further declined to 6d.

As far as the rumored reconstruction of the Egyptian Mines Exploration is concerned, concerning which we expressed doubts in our last, it is now definitely stated that this will not take place. The shares of this company are quoted 3s. 6d., a fall of no less than 2s. since the commencement of the past account. Nile Valleys are unchanged 6s. 6d.
